EMPLOYER

Positions Responsibilities:

The Advanced Practice Provider II (APP) will treat a wide variety of conditions that require a broad and in-depth knowledge of the area of assignment such as Women’s Health, Adult and Child primary care, or in a generalized area that requires the employee to function in a wide variety of settings and work assignments. Employees at this level frequently serve as consultants to the medical staff, participate as in-service education leaders, and may serve as a student preceptor. Work may include participating in the evaluation, development, and implementation of agency policies, procedures, goals, and objectives, and other administration functions. This position will cover all 8 counties as needed. The base location will be Pasquotank County.

Key Duties:

- Obtain, record, review, and interpret the medical and social history of patients in all service types.
- Perform physical examinations and medical procedures.
- Provide Advance Practice Provider care for Family Planning, Maternal Health, Colposcopy and Sexually Transmitted Infections
- Arrange referrals as needed to other members of the health care team.
- Carry out individual and group teaching demonstrations.
- Provide training of staff function in clinic operations, and community education.
- Monitor quality of patients’ records and ensure inclusion of all appropriate findings and recommendations.
- Participate in a team approach to patient care being cognizant of, and responsive to the needs of other disciplines and personnel in the clinic setting.
- Participate in the educational activities of the agency or in the community.

Knowledge, Skills, and Abilities and Judgments:

- Thorough knowledge of techniques of interviewing, medical and relevant history taking, principles and practices of general medicine and disease states as they relate to the area of work.
- Thorough knowledge of health appraisal tools, laboratory tests and findings, advanced physical assessment, advanced pathophysiology, advanced pharmacology, and therapeutic procedures as related to the area of work.
- Thorough knowledge and ability to plan a regime of care based on assessment and findings.
- Considerable knowledge of available resources and appropriate referral methods.
- Skills in performing clinical functions.
- Skill in assisting with routine surgical procedures.
- Ability to examine patients and detect abnormalities.
- Ability to record accurately and completely all information necessary to evaluate and plan care and to convey this to the physician.
- Ability to communicate orally.
- Ability to teach and counsel individuals, families and groups in areas of health maintenance, preventive medicine, and care of the sick; and the ability to establish and maintain effective working relationships with staff and to gain the confidence of patients and families and work effectively with them.
- Some ability to plan and conduct in-service training programs.
- Work requires judgment in the application of accepted patient care protocols and medical guidelines in the area of assignment to determine the appropriate course of action.

Minimum Training & Experience:

Licensed as a Physician Assistant by the North Carolina Medical Board or approved to practice as a Nurse Practitioner or Certified Nurse Midwife by the North Carolina Board of Nursing and the North Carolina Medical Board and one year of experience as an APP.

NOTE: All degrees shall be from an appropriately accredited institution. Official transcripts will be required upon hire.
